

AT YOUR FINGERTIPS

Current Best iPad Apps for Effective Differentiated Instruction

iPads are excellent tools for supporting your goals for differentiation. Whether you have one or several, iPads can be easily integrated into your instruction to make it more engaging, individualized and effective. Learn about the wonderful accessibility features that come pre-loaded and can aid in universal design. Explore the best free and low-cost apps for differentiation across grade levels and content areas. Walk away with ready-to-implement lesson plans that incorporate apps for whole group, small group and individual learning. Let this workshop save you time and money by insuring that you have the latest, best apps at your fingertips!

K-8 teachers

February 27, 2014

9 a.m. to 3 p.m.

Whether you have one iPad or a cart full, Anne Beninghof has suggestions to help “make it work” in your setting. This workshop is geared toward K-8 teachers.

To register, visit www.esu1.org and click on Event Registration. Cost is \$15
